A Successful Man

Among the notable professional men of this country who achieved great success along strictly legitimate lines was Dr. R. V. Pierce. Devoting his attention to the specialty of women's diseases, he became a recognized authority in that line.

Over fifty years ago this noted physician gave to the world a Prescription which has never been equaled for the weaknesses of women. Dr. Pierce, of Buffalo, N.Y., long since found out what is naturally best for women's diseases. He learned it all thru treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening pains, and for the many disorders common to women in all ages of life. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in both tablet and fluid form.

A REAL TRAGEDY

There was a little mouse
That ran around a house;
Just the cutest little feller
Without a streak of yellor.
He found a nice new match
His teeth were fine to scratch;
It burned his little jaw
Also his right front paw.
The fire burned the house
Where dwelt the little mouse.
The man who owned it fussed,
And some say that he cursed.
The moral is get a cat and some
real fire insurance and stay happy.
